

YOKOGAWA

vigilantplant®

FIPC-TEST**Date of Assessment:** 10/07/2026**Duration : 15 Mins****Total Score : -----****Max. Marks : 30****Answer All the Questions. Tick the Appropriate Answers.****Answer All the Questions. Tick the Appropriate Answers.**

1) Select the appropriate answer from the given options

EJX can be used for

- a) Diff Pressure
- b) Gauge Pressure
- c) Absolute Pressure
- ☒ d) All of the above

2) Select the appropriate answer from the given options

The Sensor used in EJX Pressure transmitter

- ☒ a) Silicon Resonant Sensor
- b) Piezoelectric crystal
- c) Capsule
- d) Capacitor

3) Select the appropriate answer from the given options

The sensor used in vortex flow meter

- ☒ a) Piezoelectric crystal
- b) Ultrasonic Crystal
- c) above two
- d) Capacitance

4) Select the appropriate answer from the given options

The natural frequency of the EJX pressure sensor at zero diff pressure

- ☒ a) 90KHz
- b) 60KHz
- c) 50KHz
- d) 40KHz

5) Select the appropriate answer from the given options

The following flow meter is mostly commonly used for slurries application

- a) Rotameter
- ☒ b) Magflow
- c) Orifice
- d) Vortex flow meter

6) Select the appropriate answer from the given options

The Excitation used in Yokogawa's Mag flow meter

- a) AC b) DC c) Pulsed DC ☒ d) Dual frequency

7) Select the appropriate answer from the given options

A EJX Transmitter is consist of more than one capsule

True

☒ False

8) Select the appropriate answer from the given options

In EJX Transmitter, Differential pressure is directly proportional to

☒ a) $f_1 - f_2$

b) f_1

c) $f_1 + f_2$

d) f_2

9) Select whether the given statement is True or False

A EJX transmitter is capable of measuring both Static and Differential pressure

☒ True

☐ False

10) Select whether the given statement is True or False

A EJX Transmitter has two silicon resonant sensor for measuring

☒ True

☐ False

11) Select whether the given statement is True or False

Magnetic flow meter can be used for non conductive fluid

☐ True

☒ False

12) Select the appropriate answer from the given options

In case of controller, Universal input means

- a) RTD Input
- b) T/C Input
- c) V and mV Input
- ☒ d) All of the above

13) Select the appropriate answer from the given options

The maximum number of transmitter that can be powered by US1000 controller

- a) 1
- ☒ b) 2
- c) 3
- d) 4

14) Select the appropriate answer from the given options

4 to 20 mA Input terminal is available with US1000 controller

- ☒ True
- ☐ False

15) Select the appropriate answer from the given options

Light Loader communication is available with

- a) UT320
- b) UT350
- c) US1000
- ☒ d) All of them

16) Select the appropriate answer from the given options

The Maximum number of Measured channels for Dx2048 Recorder

- a) 20
- ☒ b) 48
- c) 30
- d) 40

17) Select the appropriate answer from the given options

Recorder is mainly used for

- ☒ a) Recording of process data
- b) Controlling of process data
- c) Only for indication of process data
- d) None

18) Select the appropriate answer from the given options

The max number of alarms that can be set for each channel in DX2048

- ☒ a) 4
- b) 8
- c) 6
- d) 2

19) Select whether the given statement is True or False

4 to 20 mA Input is available for Dx2048 Recorder

- ☒ True
- ☐ False

20) Select whether the given statement is True or False

RTD input is available for Dx2048 Recorder

- ☒ True
- ☐ False

21) The flow of water through a pipe line has to be controlled at a particular flow,

say - 40 litres / hr; Then 40 litres/Hr is ...Set Point.....

22) What is FOUNDATION technology?

A digital fieldbus communication technology used for communication between field instruments and the control system.

23) What is FOUNDATION H1?

Foundation H1 is a 31.25 kbps digital communication over the same two wire cable.

- 24) What applications are best suited to Fieldbus?
Process automation application with multiple intelligent field devices / distributed control / diagnostics and reduced wiring.
- 25) Is FOUNDATION technology a recognized international standard?
Yes (IEC 61158 / IEC 61784)
- 22) The process of Equalization of HIS with FCS is.....
- (i) ~~Downloading~~ (ii) Uploading (iii) IOM Download (iv) None
- 13) Vehicle Interface card used in HIS for Vnet/IP network is... VITol
- 14) What is CS stands in CS3000... control system
